

SMARTER CARE, ENGINEERED.

Smarter Care.
 Better Outcomes.
 Every Day.

An enterprise-grade digital care management platform built for UK Adult Social Care providers — putting compliance, communication and quality of care at your fingertips. **Person-centred by design. Audit-ready by default.**

PERSON-CENTRED CARE

COMMUNITY SUPPORT

STAFF TRAINING

Tail-Ed Care is built by **Hierarchy Technologies** — the software arm of Hierarchy Support Services (HSS), a leading Scottish care provider scoring **100% across all Care Inspectorate quality themes**. Real care. Real workflows. Engineered into a platform that brings the same standard to providers across the UK.

What Tail-Ed Care delivers

Medication Records (eMAR)

Six-status MAR with real-time logging, refusal capture, alerts and CQC-aligned audit trail.

Rota & Shift Management

GPS-verified clock-in/out, drag-drop calendar, swap & cover requests, two-way RotaCloud sync.

Service User Records

17-tab care record, 8-section person-centred plans, risk assessments & All-About-Me.

Incidents · Accidents · Damages

Three CQC-aligned record types with structured workflows, ABC charts & safeguarding routes.

Smart Manager

Rules-based findings queue — only the items that need a manager. 20+ rule types, click-through.

Secure Chat & Notifications

Team · family · whistleblowing channels with voice notes, presence & auto-translation.

TAI

AI built into every part of the care record
