

TAIL-ED CARE • THE PLATFORM FOR UK ADULT SOCIAL CARE

# Built by a care provider. For every care provider.

Tail-Ed Care is the digital care management platform engineered by Hierarchy Technologies — the software arm of Hierarchy Support Services (HSS UK), a leading Scottish care provider scoring 100% across all Care Inspectorate quality themes. Real workflows. Real evidence. Engineered into a platform that brings the same standard everywhere.

PERSON-CENTRED CARE

COMMUNITY SUPPORT

STAFF TRAINING

## For care workers THE FRONTLINE VIEW

- **Medication Records (eMAR)**  
Six-status MAR • refusal capture • audit trail.
- **Service User Records**  
17-tab structured record per resident.
- **Care Plans • 8 sections**  
Person-centred "My" plans & risk assessments.
- **ABC Charts & Triggers**  
Behavioural support with trigger profiles.
- **Mobile • Offline-first**  
Works in the basement corridor. Voice-first input.
- **SOS & Smartwatch (Q3)**  
Crisis alerts on the wrist. Buzz, glance, respond.

## For managers OPERATIONAL NERVE CENTRE

- **Smart Manager**  
Rules-based findings — only what needs you. 20+ rules.
- **Incidents • Accidents • Damages**  
Three CQC-aligned record types & safeguarding routes.
- **Rota & Shift Mgmt**  
GPS-verified clock-in/out • two-way RotaCloud sync.
- **Handover Summary**  
Auto-drafted from today's notes. Saves 20 min/shift.
- **Compliance & Audit**  
Audit-ready every minute. One-click CQC-aligned PDF.
- **Real-Time Chat**  
Care team • on-call • whistleblowing channels.

## For admin • directors GOVERNANCE • INTELLIGENCE

- **Training & Certifications**  
Catalogue • expiry alerts at T-30. Never lapse.
- **Performance Tracker**  
Per-staff KPIs • trend analysis • supervisions.
- **Finance Anomalies (AI)**  
AI-detected invoice patterns & variance flags.
- **Service Audits • 4 groups**  
Service Planning • Kitchen • Fire • Health & Safety.
- **HR Workflow & Knowledge Mgmt**  
Disciplinary • supervisions • policies & SOPs.
- **TAi Insights**  
AI usage analytics. Confidence • feedback metrics.

## TAi • AI in every part of the care record

Grounded in the live data. Permission-aware. Streaming.
